STATEMENT OF FACTS

Honorable Commissioner of Patents & Trademarks

Alexandria, VA 22314

Dear Sir:

I, Ryan C. Durham, have reviewed and understand the following statements. I hereby declare and make the following statements based on information and belief I believe to be true, with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon:

1. I found an email in our files including contact information for Robert Markowitz and Joseph Thomas O'Neil. See Exhibit A.
2. I searched online and found an email address for Vijay Bhagavath, bbagavath@att.com. I sent an email to this address on February 23, 2009. See Exhibit B. That same day I emailed Robert Markowitz and Joseph Thomas

O'Neil a copy of the inventor declaration for their signature and asked for contact information for Vijay Bhagavath. See Exhibit C.

3. On February 23, 2009, Robert Markowitz sent me an email saying that Joseph Thomas O'Neil's email address is joconeil2003@yahoo.com. See Exhibit D. Robert mentioned that Vijay was registered on LinkedIn.com. On February 23, 2009, I sent Vijay Bhagavath a message through LinkedIn.com, but the message bounced. See Exhibit E.
4. After some Internet research, I found evidence that Vijay Bhagavath works or worked at Siemens and found references to vijay.bhagavath@icn.siemens.com. I sent an email to joconeil2003@yahoo.com and vijay.bhagavath@icn.siemens.com on February 26, 2009. See Exhibit F. I have not received a reply from either as of Thursday, May 21, 2009. The email sent to vijay.bhagavath@icn.siemens.com was returned as undeliverable. See Exhibit G.
5. I searched for Joseph O'Neil and Vijay Bhagavath on zabasearch.com and other "people finder" websites for individuals near AT&T headquarters in New Jersey. The search result telephone numbers provided only dead ends.
6. After more Internet research, I found an alternate Siemens email address for Vijay Bhagavath, vijay.bhagavath@siemens.com. On March 5, 2009, I sent an email to that address and it returned as undeliverable. See Exhibit H. Additional Internet research has not produced an alternative email address for Joseph Thomas O'Neil.

Robert, and Joseph,

We are prosecuting the patent application for a network-based service to provide on-demand video summaries, on which you are inventors. Please review the attached Inventor Declaration for accuracy. If you notice things which are incorrect, please let me know. The declaration basically states that you conceived of the invention before the actual filing date of the patent. After your review, please sign and return the declaration via email or fax. Thank you so much for your assistance in this matter.

Also, do either of you have an email address for Vijay Bhagavath? I have the address 'bhagavath@att.com', but it came back as undeliverable.

Vijay,

Did you work at AT&T in 1997? I am working on a patent application about condensed video summaries from 1999. We are trying to contact the inventors (you, Robert Marzowicz, and Joseph O'Neil) to sign a declaration establishing a date of invention earlier than the actual filing date.

If you are the right Vijay, please email me at ryan.durham@intel.com so I can send you the declaration to sign and let you know where to send it. Also, if you know how to contact Robert and/or Joseph, please let me know.

Thank you very much. Best regards,
- Ryan Durham

Vijay, Robert, and Joseph,

We are working on a continuation of a patent application of yours from AT&T in 1999. The application relates to on-demand video summaries. We are trying to establish a slightly earlier date of invention based on some documents and emails in our records and have prepared a declaration to that effect.

We ask you to (1) please review the attached declaration for accuracy and let me know if you see anything wrong, (2) sign the declaration, and (3) return the signature page of the declaration to me (preferably electronically at ryan.durham@novakdruce.com)

Best regards,
